

REMARKS

By the foregoing amendment, Applicant has corrected two typographical errors in the original translation. Table 1 has been amended to correct "CFC substitute R410C" to "CFC substitute R410A" and the temperature at page 5, line 17 has been changed from "90°C" to "80°C". No new matter is contained in the amendments because the specification at page 11, lines 15-18 provide support for the correct 80°C value of the temperature corrected at page 5. Therefore, the above amendment is intended to correct minor typographical errors and inconsistencies.
